USER GUIDE

**How to enable
Unity web player plug-in in your
browser**

**Operating system: Mac OS
Browser: Chrome**

1. When you click Play button, if you don't install unity web player plug-in, you will see the following screen.

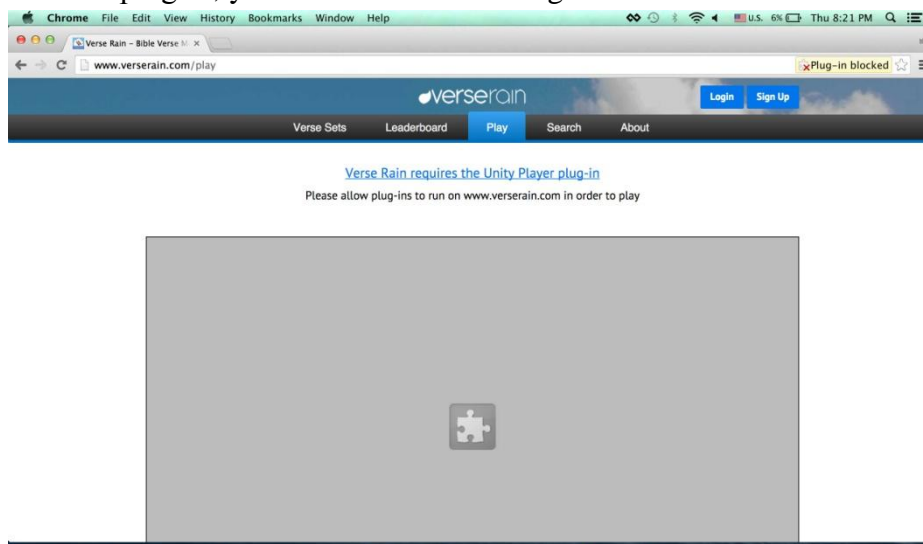

2. Press the link "Verse Rain requires the Unity Player plug-in". It will direct you to unity web page for download the web player.

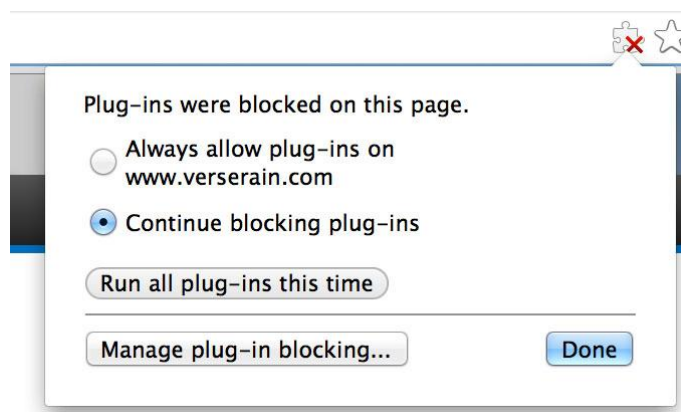

3. After download the player, install it.

4. Then go to the play page on verserain.com. Refresh the browser (press F5 button or click [refresh icon]). If you don't enable the plug-in, you will see the following screen.

5. Enable the plug-in. Click an icon [puzzle icon] which is on top right corner of the browser.

6. Choose "Always allow plug-ins on www.verserain.com". Then click "Done".
7. Refresh the browser again. You will see the following screen that unity web player is loading.

8. Enjoy the game! If you want to save your score on the game leaderboard. You should sign up.
